

THE DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
CASPER FIELD OFFICE

**ENVIRONMENTAL ASSESSMENT (EA WY-060-04-065)
FOR THE ANTELOPE MINE COAL BED NATURAL GAS
PLAN OF DEVELOPMENT**

TABLE OF CONTENTS

1. PURPOSE AND NEED FOR THE PROPOSED ACTION

- 1.1 Introduction**
- 1.2 Purpose and Need**
- 1.3 Conformance With Applicable Land Use Plans**

2. THE PROPOSED ACTION AND ALTERNATIVES

- 2.1 Description of the Proposed Action (Alternative A)**
- 2.2 Environmentally Preferred Alternatives to the Proposed Action (Alt. B)**
 - 2.2.1 Changes To the Original Proposed Action**
 - 2.2.2 Site Specific Mitigation Measures**
- 2.3 No Action Alternative (Alternative C)**

3. THE AFFECTED ENVIRONMENT

- 3.1 Critical Elements of the Human Environment**
- 3.2 General Setting**
 - 3.2.1 Physiographic Setting**
 - 3.2.2 Geology**
- 3.3 Soils**
- 3.4 Vegetation**
 - 3.4.1 Wetland/ Riparian**

3.4.2 Invasive Species

3.4.2.1 Skeleton Leaf bursage

3.4.2.2 Leafy spurge

3.5 Wildlife

3.5.1 Big Game

3.5.2 Fisheries

3.6 Threatened and Endangered Species (T&E), Special Status Species

3.6.1 Bald Eagles

3.6.2 Ute Ladies'-tresses

3.6.3 Black-footed Ferrets

3.6.4 Other T&E and Candidate Species

3.6.5 Sensitive Species

3.6.5.1 Greater Sage Grouse

3.6.5.2 Mountain plover

3.6.5.3 Raptors

3.6.5.4 Other BLM Special Status

3.7 West Nile Virus

3.8 Water Resources

3.8.1 Groundwater

3.8.2 Surface Water

3.9 Cultural Resources

3.10 Air Quality

4. ENVIRONMENTAL CONSEQUENCES

4.1 Soils and Vegetation Direct and Indirect Effects

4.1.1 Wetland/Riparian

4.1.2 Invasive Species

4.1.3 Soils and Vegetation Cumulative Effects

4.2 Wildlife

4.2.1 Big game Direct and Indirect Effects

4.2.2 Big Game cumulative Effects

4.2.3 Migratory Birds Direct and Indirect Effects

4.2.4 Migratory birds Cumulative Effects

4.2.5 Raptor Direct and Indirect Effects

4.2.6 Raptors Cumulative Effects

4.3 Threatened and Endangered/ Sensitive Species

4.3.1 Direct and Indirect Effects Threatened and Endangered

4.3.1.1 Bald Eagle

4.3.1.2 Ute Ladies'-tresses

4.3.1.3 Black-tailed Prairie Dog

4.3.2 Sensitive Species Indirect and Indirect Effects

4.3.2.1 Greater Sage Grouse

4.3.2.2 Mountain Plover

4.3.2.3 Sensitive species Cumulative Effects

4.4 West Nile Virus

4.5 Water Resources

4.5.1 Groundwater Direct and Indirect Effects

4.5.2 Groundwater Cumulative Effects

4.5.3 Surface Water Direct and Indirect Effects

4.5.4 Surface Water Cumulative Effects

4.6 Cultural Resources

4.7 Air Quality

5. CONSULTATION/COORDINATION

6. OTHER PERMITS REQUIRED

7. REFERENCES AND AUTHORITIES

8. LIST OF INTERDISCIPLINARY TEAM PREPARERS AND REVIEWERS

FIGURES AND TABLES NUMBERED ACCORDING TO AND INCLUDED IN SECTION OF REFERENCE

ATTACHMENTS

Attachment 1: Conservation Measures, Reasonable and Prudent Measures, Terms and Conditions, and Conservation Measures from Powder River Basin Oil and Gas Project Programmatic Biological Opinion, December 17, 2002, U.S. Fish and Wildlife Service.

Attachment 2: Bowers Oil & Gas, Inc., Antelope Coal Mine POD, Coalbed Natural Gas Project, Biological Assessment, Casper and Buffalo Field Offices

Attachment 3: Photographs taken during on-site inspection, 12/15/ 2003.

Attachment 4: Wyoming Department of Environmental Quality NPDES permit.
